Professional Summary

Linux Systems Administrator with 5+ years of experience managing hosting infrastructure for 30+ clients and 50 websites. Generalist profile built on solid Linux and networking fundamentals: automation, containers, corporate email, monitoring, and software development.

Technical Skills

- Infrastructure: Linux server administration (Debian, Ubuntu, Arch); automation with Ansible; Podman containers (OCI, Docker-compatible); Traefik, Nginx, Apache; Cloudflare (DNS, CDN, WAF); Tailscale; Grafana and Prometheus; AWS (S3); TLS via Let's Encrypt; hosting for WordPress, Joomla, Node.js, and Odoo; LAN networking and structured cabling
- Programming: Bash, Python, PHP, Rust, C, JavaScript, Haskell; MariaDB/MySQL and PostgreSQL; Git and GitHub; web development with React and Laravel; microcontroller software
- Languages: Spanish (native), English (B2 – EFSET certified)

Professional Experience

- Cooperativa de Trabajo Tera Ltda. Rosario, Argentina
Partner – Systems & Infrastructure Administrator 2020 – Present
 - End-to-end administration of hosting infrastructure for 30+ clients and 50 websites (WordPress, Joomla, and other CMS) across 5 Linux VPS (Debian/Ubuntu): provisioning, hardening, maintenance, and migrations.
 - Infrastructure and hosting provider for Grupo Ayudín: servers, websites, maintenance, and technical support.
 - Automation of server provisioning, hardening, and deployment with Ansible.
 - Applications in Podman containers behind Traefik (reverse proxy with automatic TLS); DNS, CDN, and WAF on Cloudflare; mesh VPN with Tailscale.
 - Corporate email for 40 clients: migrations and deliverability (SPF, DKIM, DMARC).
 - Monitoring with Grafana and Prometheus; automated backups with off-site copies in AWS S3.

Entrepreneurship

- Electronics Sector Company Rosario, Argentina
Founder & Technical Lead
 - 2025 revenue of USD 50,000; responsible for technical direction and overall business operations.

Personal Project

- Home Lab: Self-hosted services infrastructure: Podman containers (Immich), DDNS, AWS S3 storage, private networking with Tailscale

Education and Certifications

- Universidad Nacional de Rosario (U.N.R.) Rosario, Argentina
Bachelor's Degree in Computer Science – third year in progress 2023 – Present
- Instituto Politécnico Superior (I.P.S.) Rosario, Argentina
Technical Secondary School Diploma in Computer Science 2017 – 2022
- B2 English Proficiency Certification – EFSET
- AWS Certified Cloud Practitioner – in preparation (2026)

Interests: electronics, reading, and open-source software.
